

Fountain City Family Chiropractic

Kansas City, MO

Dr. Brianna Murray opened her business with the mission of empowering people to live longer, healthier lives through holistic healthcare and is dedicated to changing healthcare in her community.

“We had just started to see growth within the last six months. We’re trying to use this crisis to slow down and restructure a little bit, trying to find the silver lining and blessing in that.”

Dr. Miller is still accepting appointments and while initially her bookings were down as much as 50%, in recent weeks they’ve slowly started to climb back up as people realize that her services are essential to their health. She will end this week with bookings 25% down from her pre-COVID-19 volume.

Having staff on hand to help keep her business running is critical and the PPP loan has enabled her to do that.
